Jeff,

If for nothing else it would be good to get an update of all that is going on and to network. You were the only one who gave me updates thus it would be good if you were there to answer any questions.

Mark

Mark – Trying to decide whether to attend today. CW and Bill are thinking about attending too. Do you think it's worth it for us air guys? Seems pretty non-air centric. Maybe just the 1st half?

Mark, Ex. 6 Personal Privacy (PP)

Our enforcement case is confidential at this point, although they are beginning discussions with NC. I am copying Aaryn Jones, Ken Mitchell and Floyd Welborn as they may be best to give an update.

All,

I am not sure if any of you are going to attend this meeting on Monday. Detlef Knappe asked me the following question below. I am glad to do this however I would need some input if I am to do so.

Mark

Hi Mark,

Could you take the lead on putting together an update on ongoing/planned PFAS activities in NC that are being led by EPA ORD and R4?

Water

Air

Any other media (biosolids, fish, ...?)

Both Chemours and non-Chemours related

On Monday morning, there is a 45-minute time slot for such an update - presentation and Q&A.

Best,

Detlef

Subject: Quick update on PFAS meeting on June 17

Hello everyone,

We are convening a PFAS meeting at NC State next Monday to provide updates on PFAS-related activities at EPA (ORD and Region 4), DEQ, DHHS, and PFAST. The meeting will take place in the auditorium of the Toxicology Department on Centennial Campus - Room 2104 (you go through door 2107 to get there). Start time is 9 am, and we will finish at 3 pm. Please stay tuned for final agenda, webinar dial-in information, lunch order form, and parking directions.

I know some of you will be unable to attend or dial in. In that case, please feel free to select an alternate and let me know their contact information.

Thank you,

Detlef
